Strapholders replacement in Nobile IFS 2016

Dear Sir or Madam, As a producer of the kiteboarding equipment we always put the safety first. Unfortunately we have discovered the faulty series of strapholders in IFS 2016. Your health is the most important for us, so we kindly ask you to take up the following steps:

Check whether the strapholders are orange or black:

2016 orange strapholders – the faulty ones

2016 black strapholders – the right ones

The Nobile dealer will replace the orange strapholders with black ones. Please, make sure your 2016 strapholders will be replaced.

We kindly thank you for your understanding,

Nobile Team
